

UBuildABook EZPay Program Overview

Our EZPay program is where we setup a webpage for assisting the school with collecting the parent payments for Yearbook Orders and/or Fundraiser Ad Sales. This is handled through our Yearbook Pro Software. The parent payments for yearbooks come directly to us since it uses our Visa/Master Card/Amex merchant accounts. We credit the amount collected towards the school's total order.

The school's Yearbook Administrator is able to login to Yearbook Pro Online to get a recap of the money collected (when, who, how much, how paid, what ordered).

For Fundraiser Ad Sales, the parent will be able to login and create their Ad Page (or ¼ page or ½ page or business card), depending on which options the school wants to offer.

UBuildABook EZPay FAQ for School

How can parents pay for the yearbook and/or ads?

Our standard payment accepts Visa, MasterCard, Discover and American Express. Special arrangements can also be made for accepting Electronic Checks. That information would be communicated on the individual school's selling page.

How is the school informed about the EZPay Yearbook Orders?

The Yearbook Administrator can login to Yearbook Pro Online and see a recap of pre-sold books (date, student name/homeroom, quantity, amount paid and order details) and Ads purchased (1/4 page, 1/2 page, full page, etc).

How is the EZPay payment price determined and updated?

The school determines the price(s) to be charged and the effective dates of the prices. This information is sent to the school's yearbook coordinator at UBuildABook and the payment webpage is updated on the effective date of the prices. The school also determines the cutoff date for accepting EZPay yearbook orders and/or ad orders.

What happens with the money that is paid by the parents?

- The parent payments for yearbooks come directly to us since it uses our Visa/Mastercard/Amex Merchant Accounts.
- Our online reporting details the monies that have been collected.
- The monies collected for yearbook sales (less the 3% credit card merchant fee) are applied directly to the school's yearbook invoice.
- The monies collected for yearbook Ad Sales (less the 10% royalty and credit card merchant fee) are applied directly to the school's yearbook invoice.
- All amounts collected will reduce the balance owed for the yearbooks.
- Any overage in the amount of money collected can be returned to the school or use as next year's yearbook deposit.

How/when is the yearbook distributed?

Yearbook Distribution depends on the arrangement made by the school. There are two options which can be selected by the school:

Option 1: All yearbooks are sent to the school for distribution to the students.

This is the lowest cost option since bulk yearbook shipping is the least expensive shipping option.

Option 2: Yearbooks can be mailed directly to the shipping address requested by the purchaser of the yearbook. This option has an extra shipping and handling fee associated with it.
